Hello everyone,

As you know GraphConnect Europe takes place in London on May 7, where we are exploring the rapidly growing world of graph databases and their application.

We are now raffling 10 free GraphConnect Europe tickets among our Google Group Members. Just send an E-Mail to gceu...@neotechnology.com with subject „Google Group Member wants to win“.

We will draw the winners end of next week.

Find out all about GraphConnect Europe on our website (<http://graphconnect.com/>). The agenda features customers such as adidas and Orange, as well as well-known graph community members from across Europe. There are also plenty of hands-on sessions and plenty of chance for a free one2one with our Neo4j experts.

If you do not just want to trust to your luck, you can always save 20% on your ticket price as a Google Group member using this [Registration Link](#).

See you in May

Cheers, Michael
