Collaborator

3 small improvements for neo4j-harness:

- expose GraphDatabaseService in ServerControls and Neo4jRule -> enables assertions based on GDB
- enable GDB based fixtures by using Function
- InProcessServerBuilder and Neo4jRule use a existing graph.db

updated the PR based on a discussion with @cleishm. Instead of directly using the source store, it is copied over using `TestServerBuilder.copyFrom(File)?

jakewins commented Apr 8, 2015

Collaborator

Looks good Stefan!

Would you add a small note in the changelog of this module to the PR?

adding changelog

738c8c6

jakewins commented Apr 23, 2015

Collaborator

@sarmbruster looks good! I've rebased this onto latest 2.3 and squashed it into one commit, will merge once this PR is green: #4516
