Neo4j I can not search the node by the property which with blank

asked 4 months ago

viewed 31 times

active 4 months ago

- ▲ I create a node with a property with blank like this (n:x {name:"XXX YYY"})
- 3 when i search the node like this match (n:x) where n.name="XXX YYY" return n
- ▼ but it return nothing
- ★ anyone who got this problem?

neo4j

- ▲ I have solved this problem when I enter to the browser,the line is too long,so the browser cut it to multiple lines. It cut the property string like this (n:x {name = "XXX YYY"}) so it add a '\n' to the string
