systay added kernel 2.3 labels Apr 24, 2015

chrisvest commented Apr 24, 2015

Collaborator

@jakewins The build failure is something unrelated. Did you meant to squash the two commits?

tinwelint commented Apr 27, 2015

Collaborator

The test failure is a known flaky test... I'm rerunning.

1  +## Neo4j Kernel
2  +
3  +This module, for historical reasons, contains multiple important
4  +  components of Neo4j:
5  +  - The embedded Java API
6  +    - org.neo4j.graphdb
7  +  - The embedded Java API implementation
8  +    - org.neo4j.kernel.coreapi
9  +    - org.neo4j.kernel.core
10 +  - The embedded Traversal Java API
11 +    - org.neo4j.graphdb.traversal
12 +  - The embedded Traversal API implementation
13 +    - org.neo4j.kernel.traversal
14 +  - Batch Import
```

tinwelint added a note Apr 27, 2015

Collaborator

let's not confuse the term Batch Import with the old BatchInserter , also both could be mentioned:

- Batch insertion
 - org.neo4j.unsafe.batchinsert
- Batch import
 - org.neo4j.unsafe.impl.batchimport

the manual mentions how they relate to and differentiate from one another.

Add a line note

Clean up old files in kernel module ...

9c6ae13

jakewins commented Apr 27, 2015

Collaborator

@**tinwelint** updated to separate legacy batch importer and new batch insert
@**chrisvest** +1, squashed to one commit

If either of you wouldn't mind merging if you're happy, that'd be awesome!

tinwelint merged commit **69bfc69** into **neo4j:2.3** Apr 27, 2015
