## How do I get all nodes from neo4J REST

Work on work you love. From home.

stackoverflowcareers

▲ Is it possible to get all nodes from the REST APIs? There are posts about Cypher but not REST.

0 I tried doing /node and /nodes but neither seemed to work.

▼ neo4j

▲ No need for a rest endpoint, Cypher is all you need.

0 :POST /db/data/transaction/commit {"statements":[{"statement":"MATCH (n) RETURN n"}]}

▼

With an additional parameter `,"resultDataContents":["row","graph","REST"]` per statement you can select the result format.
