I am creating a social network using neo4j , I work with Microsoft azure services , and I wrote my backend at c# , I am connecting the database with an IOS/Android app so at some point I need to lazy load the entities , how can I do that in c# ?? I so some solves but for Java , is there any for c# ???

c# .net database neo4j lazy-loading

See <http://neo4j.com/developer/dotnet> for available .Net libraries.

Your iOS / Android part should be unrelated.
