Collaborator

Rule planner uses index seeks when explicitly asked for. For example  
`MATCH (n:User) USING INDEX n:User(email) WHERE has(n.email) RETURN n`  
will now not fail when using the rule planner.

  Use index seek in rule planner when asked for ...  2a4e308

Collaborator

Wait with merging until #4414 is merged. We should also be sure we want this functionality in 2.2.

systay commented Apr 13, 2015

Owner

Let's do this in 2.3 instead
