Hi all,

where can i download the javadoc of Neo4j 2.2.0? There isn't inside the zip folder, there isn't the dir "doc" as it was for older versions. I cannot find it in maven. Someone could please give me a link ?

Thanks in advance.

The link is hiding under "Other documentation" near the bottom of the <http://neo4j.com/docs/> page.

Thank you very much both!

I cannot download the javadoc with Maven. I just find it at <http://neo4j.com/docs/2.2.0/javadocs/> as Chris said.

Rita
