[Take the 2-minute tour](#)

## @relatedToVia on an array

USE STACK OVERFLOW TO  
FIND THE BEST DEVELOPERS

stackoverflowcareers

Trying to create @relatedToVia as mentioned below.

```
@NodeEntity
abstract public class Table{
    @GraphId
    Long id1;
    @RelatedToVia(type="hasRowFields")
    protected RowField[] rowFields;
```

Can we relate on an array data type?  
If not, what is the other way of relating in this scenario?

Error

```
org.springframework.data.mapping.model.MappingException
```

I think arrays are not supported, try `List<RowField>` but RowField has to be a NodeEntity too.

Can you share the full exception?

tried with `<List>`, but no luck. `<Set>` is working. – [madireddy](#) Apr 10 at 13:12
