community/kernel/src/main/java/org/neo4j/kernel/impl/api/state/TxState.java in b4b50ba Apr 7, 2015

A method overload that didn't take a value would have been clearer, I think.

davidegrohmann replied Apr 7, 2015   `Collaborator`

we'll clean it up in the next iteration on this feature

craigtaverner replied Apr 28, 2015   `Collaborator`

We tried this now, but we needed to duplicate three methods in the call chain with this pattern and the amount of duplicated code was a bit much. So we reverted to the current implementation.

`st.java` in b4b50ba Apr 7, 2015

It'd be nice if tests could also be added to the `IndexProviderCompatibilityTestSuite` somewhere. It tests both our in-memory indexes, and our Lucene implementations.
